

THE ESSENTIALS

SMART AGRICULTURE: UPGRADE YOURSELF

With your MTG modem, you can:

- Know the tractor's location and route at all times.
- Transfer technical information from the tractor.
- Send alert and maintenance codes.
- Transfer agronomic information stored in the tractor monitor.

Toda la información recopilada por el MTG se envía a la aplicación My Operations Center de John Deere, y tanto el cliente como el personal del concesionario especializado pueden visualizar y analizar la información.

€2.990*
